

NXT 30:1 Hydra-Clean Pressure Wash Unit

Designed with Graco's new NXT Air Motor its ideal for heavy duty cleaning in food processing facilities, shipyards, oil rigs and other industrial applications.

- Ratio 30:1
- Maximum fluid working pressure 3065 psi (211 bar)
- Maximum air working pressure 100 psi (7 bar)
- Fluid flow at 60cpm 6.8 gpm (25.9 l/min)
- Maximum pump speed 60 Cycles/min
- Volume per cycle 430 cc
- Stroke Length 4.75" (120mm)
- Maximum operating temperature 82_C (180_F)
- Air inlet size 3/4" NPT(f)
- Fluid inlet size 1"
- Fluid outlet size 3/8"

Key:

- A 100 psi (0.7 MPa, 7 bar)
- B 40 psi (0.3 MPa, 2.8 bar)
