

CP0077 Sludge Pump

Applications

Removing water from trenches, ditches, manholes, used as industrial sumps, wet drilling applications containing rock fragments, pump sea water and certain corrosive chemicals.

Used by mines, utilities, local authorities, industries using sumps, oil companies, water boards and shipyards.

- Air Consumption at 90 psi 85 cfm
- Maximum Suction Lift (includes friction head from hose) 6.1m (20 ft.)
- Maximum Head 53m (174 ft.)
- Suction Inlet (female camlock . reduced to) 2" (50.8mm)
- Discharge Outlet (male camlock . reduced to) 2" (50.8mm)
- Air Inlet 3/4" (19mm)
- Maximum Solids 1" (25mm)
- Weight 69kg (152 lb)

CP007 Sludge Pump Performance (at 90 psi air pressure and zero suction head)			
Total Head		Capacity Per Minute	
Meters	Ft.	Litres	Gallon (US)
7.6	25	341	90
15.2	50	295	78
22.9	75	257	68
30.4	100	227	60
45.7	150	182	48
53.3	175	136	36
